

Residence  
cocktails & drinks menu

## **Inside information**

*Try not to ask for less ice – great cocktails need ice, more ice in the glass means the drink stays colder for longer, ever tried a room temperature gin and tonic?*

*Keep an even keel – if we think you're going under we'll serve you some water; don't be offended, we're just thinking of tomorrow morning.*

*Know your round – if you have a big round reel it off for us ASAP, we can cope and we can fix it quicker than you probably realise; if there's a Guinness in there get it ordered first as good things take longer than they should.*

*We hope you came here because you wanted the Residence experience – try something new and step out of your comfort zone, there are a good 50 or so ideas in this menu to keep you going.*

---

*Want something that's not on the menu?  
Just ask and we'll fix something up for you...*

*We hand squeeze our lemon and lime juice fresh everyday.*

*As much as possible we try to make our own cordials and syrups.*
